Listing of Claims:

Claim 1-18 (*Cancelled*).

19. (New) A combination safety sheet/blanket for infants, comprising:
a flat sheet having a top surface, bottom surface and two opposing ends;
end attaching means for attaching one said opposing end to the other said opposing end;
a plurality of apertures disposed in said flat sheet;
a blanket having a top surface, a bottom surface, and a longitudinal midline, the blanket being
sewn to the top surface of said sheet defining at least two blanket portions; and
blanket fastening means for temporarily fastening the two portions of said first blanket
together when the two portions are wrapped around an infant;
whereby the two portions of said blanket may be wrapped about an infant and secured by said
blanket fastening means in order to retain the infant in a supine position while sleeping.

20. (New) The safety sheet/blanket combination of claim 19, wherein said end attaching
means comprises mating strips of hook and loop fastening material; said hook material attached to
one opposing end of said flat sheet, and at least one loop material attached to the other opposing end
of said flat sheet;

wherein said flat sheet is secured around a sleeping surface by joining said hook material and at least one loop material of said opposing ends on the underside of the sleeping surface.

21. (*New*) The safety sheet/blanket combination of claim 19, further comprising a plurality of straps looped through said apertures;

wherein said flat sheet is secured around a sleeping surface by attaching said straps to sleeping surface support frame members.

22. (*New*) The safety blanket/sheet combination of claim 19, further comprising:
a plurality of apertures disposed along the opposing edges of said sheet; and
a plurality of straps releasably coupled to the apertures;
wherein said flat sheet is secured on a sleeping surface by attaching said straps to sleeping surface support frame members.

23. (*New*) The safety sheet/blanket combination of claim 19, further comprising:
a plurality of first fasteners disposed upon said sheet;
a plurality of straps, each one of said straps having at least one end including a second fastener for releasably mating with the first fasteners;
wherein said flat sheet is secured on a sleeping surface by attaching said straps to sleeping surface support frame members.

24. (*New*) The safety sheet/blanket combination of claim 19, further comprising fasteners disposed at the top and bottom surfaces of said first blanket portion and the top and bottom surfaces of said second blanket portion for reducing the width of said blanket.

25. (*New*) The safety sheet/blanket combination of claim 19, further comprising first and second fasteners disposed on said flat sheet along each of said opposing ends for selectively reducing the width of said flat sheet.
